Education

University of Alberta — Edmonton, AB
Bachelor of Science in Computer Science (Math Minor) — *Sept. 2024 – May 2028*

- Seeking a Winter 2027 co-op placement in cybersecurity and risk

Selected Achievements

- **2nd place in Canada** at the NCC National Final CTF (June 2026) with Team CHADS
- Became **President** of UCSC (Oct. 2026) after a year as VP (Internal), leading an 11-member executive team and a 170-member club
- Helped host HTCOTB 2026, a multi-school beginner CTF, and designed its OSINT and Cryptography challenges
- Led the club's brand identity and website redesign

Certifications

ISC2 Certified in Cybersecurity (CC) — Nov. 2026

Google – Foundations of Cybersecurity — Oct. 2025

Relevant Experience

Undergraduate Cyber Security Club (UCSC), University of Alberta — Edmonton, AB
President — *Oct. 2026 – Present*

- Lead an 11-member executive team and a 170-member club, running its events, CTFs and industry outreach; co-organizing a social with WiCyS UAlberta
- Building partnerships with Alberta security employers and sponsors to bring students closer to industry
- Growing the club's CTF into *CTF Alberta*, a rebranded provincial event targeting over 250 participants

Vice President (Internal) — *Oct. 2025 – Oct. 2026*

- Helped host HTCOTB 2026, a beginner CTF for students from UAlberta, MacEwan, NAIT and more, sponsored by AIMCo, Enbridge and ISACA
- Designed CTF challenges in OSINT and Cryptography
- Led the club's brand identity (logo, wordmark, colour system and typography) and restyled and maintain its public website

Competitions

National Cybersecurity Consortium (NCC) National Final CTF — June 2026
2nd Place in Canada – Team CHADS, sponsored by Mastercard and ENFOCOM Cyber — *Montreal, QC*

- Focused on reverse engineering and digital forensics; coordinated work across a four-person team
- Analyzed a captured HAR file to uncover a JavaScript web skimmer and its data-exfiltration endpoint

CyberSci Regional — Upcoming
Competitor, University of Alberta team — *Calgary, AB*

BSides Edmonton CTF — Sept. 2026
Team competitor — *Edmonton, AB*

Projects

doc-cam | *Python, Computer Vision*

- Team-built Python system using hand and face detection to track identities and collect data on an area
- Porting a lightweight version to a Raspberry Pi 4 with a magnetometer data overlay on the live camera feed

sub-risc-emu | *C, Make*

- Emulates a subset of the RISC instruction set in C; extending it to run programs in my own language

kestrel | *Drone Automation*

- Designing an automated drone payload delivery system; in early development and built openly on GitHub

fishbot | *Python, pandas, NumPy*

- Python bot that trades Polymarket crypto markets already decided by Binance prices but not yet resolved
- Uses exchange APIs with pandas and NumPy for data handling; built as a group project with two teammates

Home Lab | *Linux, Docker*

- Build and administer a self-hosted Linux server and home network with Docker; Linux is my daily driver

Additional Experience

Pizza Chef May 2026 – Aug. 2026
The Village Idiot Bar and Grill *Revelstoke, BC*

Construction Worker May 2026 – July 2026
KLC Contracting Ltd *Revelstoke, BC*

Course Instructor May 2025 – Aug. 2025
Code Ninjas *Winnipeg, MB*

- Taught C# for Unity game design, plus electronics and physics, to students in a small-group setting

Robotics Instructor Sept. 2023 – July 2024
FIRST Robotics Canada *Winnipeg, MB*

- Spearheaded robot design and helped organize community outreach events

Arduino Developer Sept. 2023 – June 2024
CanSat Competition *Winnipeg, MB*

- Designed the data logger and programmed the on-board computer (Arduino) for my CanSat team

Volunteering

WiCyS University of Alberta
Volunteer, CTF Challenge Developer

NKST
Student Volunteer

Technical Skills

Security: Reverse Engineering, Digital Forensics, OSINT, Cryptography, CTF Challenge Design
Languages: C, C++ (Arduino), Python, Java, SQL, Bash
Tools: Linux/Unix, Git, Docker, Make, MongoDB, pandas, NumPy, scikit-learn
Conferences: Canadian Security Conference 2025, CrowdStrike CrowdTour 2026, CyberAlberta Connect 2026
Spoken Languages: English (native), Macedonian (professional working)
